Skills

Technical
• PHP • HTML • Python • CSS (Sass)
• SQL (MySQL, Postgres) • Javascript
• Ruby on Rails • Data Mining

General
• Project Management • Public Speaking
• Event Planning • Budgeting
• Photography • Negotiation

Projects

Gitlet - A pocket-sized Git; Spring 2015
Gitlet was the attempt to create a lightweight model of the **Git** version control system.
After a series of project proposals and trials, Gitlet became a semi-functional VCS with the
ability to add, unstage, commit, and branch.

Willow Glen Athletic Boosters, wgab.org; Jan. 2013-Jan. 2014
The Willow Glen Athletic Boosters required an overhaul of the original Wordpress design.
Using the PHP Framework **Codeigniter**, a complete responsive, redesigned website with
PayPal Integration and social network authentication was made available.

Whimpsters, whimpsters.net; San Jose, CA – Jan. 2008–Jan. 2010
As co-administrator, I developed games, events, and scripts for members' entertainment.
This required extensive knowledge of analyzing user statistics and managing SQL
databases with hundreds of thousands of records.
